About morismedia

Moris Media is a professionally managed public relations, digital marketing and reputation-management organisation with 12+ years of industry experience, recognised as one of the world's leading PR and digital marketing boutique agencies, working across 40+ countries.

Job Summary

Moris Media is Currently Hiring for **AI Video Creator & Editor United Arab Emirates** this job May requires you to take full ownership of generating, editing, and delivering high-quality AI-driven video content aligned with brand communication, advertising campaigns, and digital storytelling objectives. This role is designed for professionals who can seamlessly combine creative thinking with technical execution using advanced AI video generation platforms and prompt engineering techniques.

The position involves transforming concepts into visually consistent, production-ready video assets while ensuring continuity in character design, scene structure, motion flow, and overall narrative coherence. The candidate will work closely with creative, content, and strategy teams to translate campaign requirements into scalable outputs that meet both performance benchmarks and brand standards.

A strong focus on consistency control and output refinement is essential, including the ability to correct AI-generated inaccuracies and improve results through structured prompt iterations. The role also requires integrating AI-generated visuals with professional editing workflows to enhance storytelling quality and final delivery standards.

The candidate is expected to manage multiple projects simultaneously, adapt content across different digital platforms, and maintain strict adherence to timelines without compromising quality. This position demands high attention to detail, problem-solving ability, and process-driven execution, along with the capability to work independently in a remote environment while maintaining clear and effective communication.

This is a role suited for individuals who thrive in a fast-paced, evolving AI-driven production environment, where experimentation, precision, and consistency are critical to delivering impactful and reliable video content.

Primary Responsibilities

Primary Roles & Responsibilities

• **AI Video Generation Execution**
Generate high-quality AI-driven videos using advanced platforms aligned with campaign and brand objectives

• **Prompt Engineering Development**
Design and optimize prompts for text-to-video and image-to-video workflows to achieve accurate and scalable outputs

• **Visual Consistency Management**
Maintain consistency in character design, environments, lighting, and motion across all video frames

• **Concept to Video Transformation**
Convert creative ideas into structured, production-ready video assets with strong narrative flow

• **AI Video Editing & Refinement**
Edit and enhance AI-generated outputs using professional tools for polished final delivery

• **AI + Motion Graphics Integration**
Combine AI-generated visuals with motion graphics and traditional editing techniques

• **Output Quality Optimization**
Identify and correct inconsistencies in AI outputs through iterative improvements

• **Cross-Team Collaboration**
Work with creative, content, and strategy teams to align videos with campaign goals

• **Multi-Format Content Creation**
Produce short-form and long-form video content for ads, reels, and brand communication

• **Platform Adaptation**
Optimize videos for different digital platforms based on format and performance needs

• **Quality Control & Accuracy**
Ensure all video outputs meet defined quality, accuracy, and consistency standards

• **Project & Timeline Management**
Handle multiple video projects while maintaining deadlines and delivery expectations

• **Visual Storytelling Execution**
Apply storytelling principles to enhance engagement, clarity, and audience impact

• **AI Tools & Workflow Advancement**
Continuously explore and implement new AI tools and production techniques

• **Remote Work Ownership & Communication**
Operate independently with clear communication, accountability, and structured execution

Required Skills

Primary Skills & Experience Required

• **AI Video Generation Expertise**
Strong hands-on experience with leading AI video platforms such as Runway ML, Sora, Pika, Luma AI, Synthesia, HeyGen, and similar tools

• **Prompt Engineering Proficiency**
Ability to design, test, and refine prompts for text-to-video and image-to-video workflows with consistent output quality

• **Video Editing & Post-Production Skills**
Proficiency in Adobe Premiere Pro, After Effects, DaVinci Resolve, or Final Cut Pro for refining and finalizing AI-

generated videos

• **Visual Consistency & Continuity Control**
Strong understanding of maintaining character consistency, scene continuity, and motion flow across video outputs

• **Creative Visual Storytelling**
Ability to craft engaging, narrative-driven video content with strong emotional and visual impact

• **AI + Traditional Workflow Integration**
Capability to combine AI-generated visuals with motion graphics and professional editing techniques

• **Problem-Solving & Iteration Skills**
Ability to identify inconsistencies in AI outputs and improve results through structured iterations

• **Multi-Platform Content Understanding**
Experience in creating and adapting video content for various digital platforms and formats

• **Time Management & Project Handling**
Ability to manage multiple projects simultaneously while meeting deadlines and maintaining quality

• **Clear Communication Skills**
Strong English communication for effective collaboration in a remote work environment

• **Tech-Aware & Tool-Adaptive Mindset**
Comfortable with learning and adopting new AI tools, workflows, and technologies

• **Experimental & Innovative Approach**
Willingness to explore new formats, ideas, and creative approaches in AI-driven video production

• **Detail-Oriented Execution**
High attention to detail to ensure accuracy, consistency, and production quality

• **Travel Flexibility**
Open to travel when required for shoots, collaborations, or project-specific needs

• **Relevant Experience Requirement**
2–3 years of experience in AI video creation, editing, or related creative production roles is required

Qualifications & Experience

Qualifications Required

• **Educational Qualification**
Bachelor’s degree in Film, Media Production, Animation, Digital Media, or a related field. Candidates with strong

practical experience in AI video creation and editing will also be considered

• **Open for Travel if Required**
Candidate must be flexible and open to travel based on project requirements, team collaboration needs, or production-related activities

• **Technical Specifications**
The candidate must have access to a high-performance laptop or desktop with sufficient processing power and memory to handle AI video generation and editing workflows efficiently
A stable and high-speed broadband internet connection is required to support seamless collaboration, cloud-based tools, and large file transfers
A dedicated and distraction-free virtual workstation is essential to ensure productivity, focus, and consistent output quality in a remote work environment

• **Salary**
We offer a competitive salary structure aligned with industry standards. Compensation will be based on the candidate's experience, technical capability, creative ability, and overall fit for the role. Salary details will be discussed during the selection process with shortlisted candidates

If you feel that your skills align with the job description, you can apply using the appropriate application channel provided by Moris Media.

Apply Only Through the Official Job Page

Candidates must review the complete job description, eligibility requirements, work model, location and experience expectations before submitting accurate and updated information through the official application form.

Submitting an application does not guarantee shortlisting, an interview or employment. Moris Media does not request registration charges, security deposits, training fees or candidate payments through its official recruitment process.
